Reviews

I actually started off looking at this pdf. It is one of the most amazing pdf i have got read. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Milford Donnelly)

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1921 Excerpt: .in two unknowns, and systems containing one linear and one quadratic equation. The graph is used to illustrate the solutions of simultaneous equations. The remainder of the book contains a brief chapter on the applications of the sine, cosine, and tangent functions; one on the meaning of logarithms and their uses in multiplying and dividing arithmetical numbers; and one chapter on geometry, leading up to the formal demonstrations of theorems on congruent triangles and parallel lines. At the end of this course the pupil is prepared to take up the study of intermediate algebra or of demonstrative geometry. Plane Geometry, a new text by the authors of a well-known algebra series, is an excellent treatment of this subject. Unusual care has been taken to make the definitions, axioms, and proofs scientifically exact. The book contains numerous interesting and valuable historical notes. Proof of incommensurable cases of theorems by means of the theorem of limits has been discarded. There are numerous arithmetical applications and exercises for algebraic solution. 1 Marie Gule, Modern Junior Mathematics. Book III. New York: Gregg Publishing Co., 1920. Pp. jdii+241. Herbert E. Hawkes, William A. Lcby, and Frank C. Touton, Plane Geometry. Boston: Ginn Co., 1920. Pp. viii+305. The authors appreciate the great diff1culty experienced by students in beginning the study of deductive plane geometry. One of the causes for this difficulty is the learner s lack of understanding of the reason for giving logical proof. To let the student see the reason...
