This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2014 in the subject Politics - International Politics - Environmental Policy, grade: 2,0, LMU Munich (Geschwister-Scholl-Institut für Politikwissenschaften), course: Spezialisierung Governance: Critical Security Studies Securitization and Emergency in Global Governance, language: English, abstract: Climate change in IPCC usage refers to a change in the state of the climate that can be identified (e.g. using statistical tests) by changes in the mean and/or the variability of its properties, and that persists for an extended period, typically decades or longer. It refers to any change in climate over time, whether due to natural variability or as a result of human activity. When such a change was seen in the past as a purely natural event, humankind now recognizes its own influence on the Earth's ecosystem. Since the 1970s academics and scientists are warning of a Global Warming caused by human activities by several publications like The Limits to Growth (1972). The issue became ultimately the public attention with the release of former US Presidential Candidate Al Gore's movie An Inconvenient Truth...
