Maths Problem Solving, Year 5 (New edition)

By Catherine Yemm, Frank Endersby

Brilliant Publications. Paperback. Book Condition: new. BRAND NEW, Maths Problem Solving, Year 5 (New edition), Catherine Yemm, Frank Endersby, Maths Problem Solving, Year 5 is the fifth book in a six-book series that has been written for teachers to use during the numeracy lesson. The sheets provide opportunities for making decisions, reasoning about numbers and shapes and solving real life problems. Differentiated sheets makes it easy to use the sheets in a mixed-ability classroom. The length of the problems are varied with short, medium and more extended problems for children to solve. The problems on each page are mixed so the children do not assume that the solution process is the same each time, but have to understand the problem. They are varied in their complexity and are presented in a meaningful, age-appropriate manner with topics the children will find relevant.

Reviews

Thorough manual for ebook fans. it had been writtren quite properly and valuable. It is extremely difficult to leave it before concluding, once you begin to read the book.
